Private wills.

seemingly original Wills which were labelled "taken from Mr. Hawkins' private office," Mr. Hawkins appears to have been joint Registrur of the former Court of Probate, and also a practising Proctor. So far as at present appears, the presumption would seem to be that almost all these Wills were ledged with Mr. Hawkins in the latter canacity: they have not therefore been treated as Records either in the late or in this present custody. Arpeniix I. Nevertheless it appears proper that their existence should be made publicly known; and a list of thom will be found in the appendix. 5. Besides the Records of the Prerogative Court proper, there

tenous from was deposited at Henriotta-street, a large collection of Diocesan 'volesto Division. Tostoreenters and Matrices Collections

Records partly relating to matters Testamentary and partly relating to matters Matrimonial, which had been sent up under the provisions of "The Probates and Letters of Administration (Ireland) Act, 1857 " (20 & 21 Vic., c. 79), s. 96, and of "The Matrimonial (Susses and Marriage Law (Ireland) Act. 1870" (33 & 34 Vig., e. 110), s. 22. They constitute a valuable addition to the collections already removed to this enstedy from the Dioreson Registries under the 4th section of the principal Act. and may be said substantially to complete the public records of the former Retablished Church so far as these exist outside that residue, which at the end of the year remained to be received from the endedy of the Land Commission, now representing the former Commissioners of Church Tennoralities in Iroland.

6. The removal of the Testamentary portion of these Records has made it necessary that certain inquiries heretofore conducted by the officers of the Probate Division should be made by the officers of this office, and certified by me or the Assistant Deputy Keener. To insure accuracy in these Returns, each search is checked and certified by two officers. 7. At the end of 1880, there remained some miscellaneous

Testamentary and Diocesan residues at the Cork Belfast and Londonderry District Registries under a certificate of retainer. given by the Judge of the Probate Division. The cartificate not having been revived, these have been taken up, and comprise-

Time did not admit of the removal during 1881, of the Diocesan and other Ecclesiastical Records destined for this office, sulation Office. in the bands of the former Ecclesiastical Commissioners; but "The Irish Church Act Amendment Act, 1881" (44 & 45 Vic. o. 71), having vested overything held by that Commission in the present Irish Land Commission, and provided (sec. 2, sub-sec. 3) that it shall from time to time lodge in this office such of the Records in question as have ceased to be necessary for the management of the property so transferred to it, the task of segregating the books and documents destined for this custody

was undertaken by the Keeper of the Records of the Land

Court. Dr. W. Neilson Hancock, q.c., to whom I beg to offer my thanks for the effectual aid thus rendered to this office, in the work of preparing these large collections for transfer.

10. The process of eliminating combustible material from the Irea Finises. fittings of the Record Treasury has been continued. The ground floor and fourteen out of twenty bays on the second floor are now effectually secured against fire. 11. Owing to the low situation of the Record Building, adjoin- Weetster

ing the tidal river Liffey, there have been from time to time have of floodings, causing dampness in the basement. The Commissioners of Works have commenced laying a concrete floor in the

basement, which it is expected will secure the Tressury against this serious mischief in the future.

12. The changes in the Record Treasury effected during the Sections year by now deposit and temporary transfer during the process Dispus. of re-fitting, are shown in the annexed diagram,

13. The process of cleaning, fistlening, and arranging for First deposit in portfolios of the Finnts has been proceeded with as far Reput XIII., as File No. 123 of the 53rd George III.

14. The arrangement of the Affidavits of the Court of Chancery Chancery has been concluded, from the letter O, 1843, to the letter Y Affairin,

1843, comprising 435 bundles. 15. The transcripts of Parochial Registers, in these Reports Precial called Parachial Returns, for the dioceses of Ardagh, 33 parishes; Returns, for the dioceses of Ardagh, 33 parishes;

Derry, 39 parishes; Dorn and Connor, 122 parishes; Kilmore, 46 parishes; Leighlin, 54 parishes; Month, 10 parishes; and Raphon, 39 parishes, bave been flattened and arranged in order of their dates, and the whole series placed in portfolios and deposited in the same bay with the Panichial Registers, to which collection they will form a useful supplement. Some bundles of this class of document have been brought in during the year from the Probate Offices, Henrietta-street, and it is probable that others will be found among the large collections awaiting removal from the offices of the late Church Temporalities Commission. The returns for the dioceses of Cashel and Emly, Clonfert, Cloyne, Elphin, and Waterford, do not yet appear to be forth-

coming.

16. The Administration Bonds of the Dioceses of Ardagh, Administration Bonds of the Dioceses of Ardagh, Administration Bonds, in., Ardfort, Coshel and Emly, Clogher, Clonfert, and Kilmore, and the Matrimonial Bonds for Armagh and Raphoe, have been

flattened and arranged under their years.

17. The arrangement of the Miscellaneous Cause Papers from Besiterthe late Receiver-Master's Office, Chancery, in dictionary order, Case Papers has been completed; and the series of Cause Papers removed s., s. 15. from Master Litton's office has been stamped, and progress made blue dewith Master Brooke's Cause Papers to the letter L.

18. The series of Prerogutive Wills, 1847-1858, removed from Prerogutive the Probate Office, Henrietts-street, has been arranged in dictionary order, and placed in envelopes as far as the letter H.

APPRINDIX I

MEMORANDUM by JAMES MILLS, Bry, on the HAWKINS' WILLS. Among the Research resourced from the Principal Projects Englished Last year over two soull perceb marked "Private Wills," "Taken from Mr. Hawkins' Private Office after his death."

Three purvels soutain 103 Wille, with, in some cases, Affidavita of Execution, Oaths of Secretors, and other misdiage Decements. A list of the Wills is amended.

Having examined the Wills for avidence bearing on the nature of their rantesty, I find that fire Wills bear rations which imply that they nects beyond. In more of these cases are there corresponding entries in

the tirant Books; some necessary further steps, such as request of affler fore or of storage daty, probably, remarking to be taken. Twelve other Wills, being accompanied by the eath of an executor or by an intrigued entry of his having been awarn, speed to have been rough to be period. In two or there of these cases it would appear

to have been intended to have proved the Wills in the Consistorial Pour are marked "below," a term which precess to have been used to energy the efficient recognism of the Will

Torn were registered in the Register of Davis Office Of the requireder, which do not lear evidence of official sets, four have been found to be displicates of Wills which have been duly proved; and one is no setograph dust of a proved colicit. A is not improbable

that other similar ruses may be found on a more extended search. With the many remaining Wills, there is, in most cases, nothing to exphile the condition of their rankedy. Neverther, however, accompanied by lextres or arbitroomic correst, which point to their laceing come to Mr. Hawkine' hands in his efficiel requesty as Deputy-Registers of the Prorogative Court. An authorized deaft letter, found with one of the With, may perhaps explain why it, and positivy many others, consined in Mr. Hawkins private office instead of finding their way into the official collection of unparted Wills. It appears from the letter than a fee of 10c ful, was citarged for belgment of a Will, which had not been paid in this instance; and, pending the payment of which for, the Deputy-Register probably retained the Will in his own hands. Although this is the early reference to the leigment fee, the lettern accommonying acrees other Wills would render probable the inference that they also were not accommod by a fee, and that to this fact may

APPENDER II.

TO THE RIGHT HONORABLE THE MASTER OF THE ROLLS—THE KOHPTERNER ERRORT OF SH. BERNARD BURGE, (J.B., Ubster, Keeper of the State Papers in the Record Tower, Dublin Cassle, dated 1st February, 1882.

Sing.—before I cuter on my mand separts of the ordinary peaceding of this Department, I wish to discovery our Homer's alterion in the Cosmonwealth Records which I have during the past year funnificary to the Public Record Different near a state, I, theny, with reference to preserve tion and indexing as will resulter them a available to the general public, who, at the Public Record Office, will now have the failest capacitation of the control of the properties of the properties of the state of the most erithed provided of Public History.

In the preparation of the following description and analysis of the Commonwealth Papers, I have been assisted by my friend, Mr. John P. Prendergasi, whose acquaintance with the history and records of the period of the Commonwealth is so well known.

THE COMMONWEALTH RECORDS.

These Records of the Commonwealth consist of lifty-six volumes. The running number to be found on the lack of each volume extends only to fifty-dive, but volume twenty-one is virtually two—rist, bremby-one and twenty-one his. Of the double system of marking to be observed on each volume, the upper one, the letter A over a number,

is the older; the lower one, a simple running number from one to fifty-five, the later. The series at one time extended to 103 volumes. A/103 being still preserved. The two greatest gaps are found between A/39 and A/56, where sixteen volumes seem to be missing, and between A/62 and A/81, where minoteen volumes are wanting. If the time could be shown when the volumes were thus numbered, it would follow that the missing volumes have been lost since that date, but it does not appear at what time or by what authority the older numbering was fixed to the volumes. Labels, descriptive of the contents, were added when the volumes were re-bound in 1869, the books being then in a most dijapidated state, and contain titles such as were mostly found men the original parelment or veltum covers. In the original numbering of the volumes no order or elastification was observed, for the most beterogeneous subjects were found to have been beaught together. This bindered a proper appreciation of the series. I have, therefore, for the better understanding of the contents, prepared two tables showing in the First Table how the books were numbered and placed according to their original marks; whilst in the Second Table I have classified them, as they relate to different subjects.

. By this method it will be found that, notwithstanding the lam of an many volumes, these books contain, to a great extent, in unbroken sequence, the proceedings of the Commonwealth Governors, first in their appointment to office, and next in their ordinary and most important In Table 11., in the Frast Class will be found three volumes re-

operations.

lating to the powers of those denoted by the Parliament or the Protooter to exercise the duties of government in Ireland. In the first of these volumes, A/27 (Vol. 26) are the instructions given to each set of Commissioners, us they were successively nominated to the post of Governors of Ireland, coding with the instructions to the Lord Henry Geomwell, appealsted Departy for the last time by his brother, Richard, Lord Protector, in 1658.

A/29 (Vol. 27) entitled " Lotters from the Parliament of England and Council of State," is confined to the proceedings of the Rump Parliament, from 7th May, 1659, to 11th October of the same year, removing the Lord Henry Granovell from his past, and attempting to restors the Republican form of Government which had been unorped by Oliver Cromwell, This Parliament superseded Richard Cromwell in England, and Henry Cromwell in Ireland, placing Ladlow, John Jones, and Miles Corbets, as Commissioners of Parliament, in the stead of Henry Grouwell, in Iroland. In A/28 (Vol. 26), entitled "Lesters from the Lord Protector and Conneil of State, or from the Parliament of England," 22nd August, 1551 to 3rd Folgary, 1659, are letters to the Governors of Ireland in favour of particular individuals.

This series of three volumes seems to be nearly complete for the whole

period of the rule of the Commonwealth in Ireland.

THE SECOND CLASS IN this Table concerns the appointments made by the Commissioners of Parliament in Ireland. It is confined to one very important volume A/26 (Vol. 24), entitled "Commissions and Instructions," and covering the period between 17th November, 1654, and 12th November, 1658. It contains the appointments by the Governors of Ireland, of Judges, Sherith, Magistrates, and Officers, such in fact as were formerly made by the Lord Lieutenant or Lord Deputy. There are also special instructions given to many of the Commissiousza and Officers. This volume seems complete for the period embraced.

Ture Turus Class in this Table refers to the orizinary proceed, ing of the Commissioners, and constrain—the of factors volumes of the orders made by the Government, as well can positions as in the process of the commission of the commission of the commission of the Factority, 1631, and consultes on the 15th December, 1600. The order seems complete for the portiol. The extent and variety of the orders for chains of complete for the portiol. The extent and variety of the orders for chains or complete for the portiol. The extent and variety of the orders for chains or complete for the process of the commission of the commiscation of the commission of the commission of the commission of the properties of Cassimities to other to orders made on each reports. But other orders seem interested. Next follow three volumes of Domestia Land Commission of the Cassimities of the Cassimities of the Cassimities of the Commission of the Cassimities of the Cassimiti

November, 1050. This series seems to be complete for the paried it correspondence to series seems to be complete for the paried it for it was only in May 1053, that Galway arrendered, so that the extraordinates legists before the kingdom was entirely under the central of the Genmanwoodth, and a retted Government established.

Then follow Civil Lists, with the names and salaries of the various Officers of Government. There are only four of these books. They concern the years 1654, 1655, 1650, 1657, and 1658. This series,

therefore, is imperfect.

Last in this class are leaves of Money, comprised in seven volumes, commencing on 17th August, 1655, and colling on 7th June, 1661. This most hapvetant series is complete, noti as of the greatest interval, so cool order or varanta for payment is prefaced by a minute deball of the greanule indusing the payment. Two or three instances are given in the Appendix, but the variety of the varantas and the indebuts given of them are too multifarious to attempt any illustration.

A fourth class follows of Books of Entries relating to special subjects out of the ordinary course of regular administration. First of this class is "Examinations of Delinement Proprietors of the Product of Athlone," A/32 (Vol. 30). It is dated 9th January, 1654. The purpose of this inquiry seems to have been to supply evidence for the Commissioners who were to sit at Athlone, wherely to establish the "Qualifiextion," or class within which the proprietor whose carriage or conduct was inquired into was to fall, in order to his receiving, when transplanted, an equivalent in Companght for the land he was removed from. This equivalent varied in proportion to his delinquency. The answers to the interrogatories make plain their nature, the interrogatories thomselves being omitted for brevity sake. There must have been similar inquiries in each of the lifteen precincts but this volume seems to be the only one which has been preserved. If all the other books were kept with the same regularity the loss is very great, for the evidence discloses a variety of details of the highest historical and personal interest.

Next follows a volume, A/61 (Yol. 39) entitled "Mallow Prococdings." This Commission held its sittings between 23rd July and 29th Scribbander, 1956.

I must refer for further details to the remarks on this volume in the Appendix to this Report.

The following volumes: "Transplanters' Certificates of the Precinct of Limerick, 19th December, 1653", 463 (Vol. 40.) Besides the historical interest of this series of looks, their generalegical value is considerable, as the transplanter emmerates the names, ages, and descriptions of each member of his family. This is the endy volume of Transplanters

Cortificates in the present collection; but I am informed that there are two others preserved in the Public Resert Office. There must have

leon twolve others, now wanting, for the remaining produce.

In the most volume, entitled "O'thoof for Lands" A-SR (7ch. 41)
thors are two subjects of a different blind comprised, can being exher for lands, the other "Compositions of Delinquest Protestant Projectors."
This section appears to be complete. For the description of this and the original properties of the complete. The properties of the subject of the contribution of the and again region to the Appearlix.

In conclusion, I am inclined to think that is no take country on the found a more curious or simporatin since of thirecised books than these of the Contanous wealth in Ireland; a moly while one cannot have regret the disappressment of so namy vomains not in any way accornicated for, is is fortunated that so many vomain, as they proceed in very contribution to complete the comme of the Government of Technal during the complete of the Convernment of Technal during the complete area.

Commonwatts rug.

Some of the volumes of the Commonwalth Records wanted indexes altogether; some had partial or incomplete case. For Volume 25, A/27, cattided "Commission and Instructions, 1650–1657," a new index less been made. It contains about 300 exterior.

Vol. 44 (A/84) of the same series, entitled "Onless, 1653," had part of mindex, from 1 to Y; but the rest had been best. In consequence, I have supplied the deficiency, and made a full and complete new index, containing about 150 cutries.

Vol. 40(A/85) of the same series, entitled "Repussions on Pervicess.

1655 J, was in worse condition, the index containing only the names from T to Y. A new index has been compiled; it contains 800 entries.

An index has been made to Vol. 49 (A/89) of the same erries.

titled "Donnston Correspondence, 1051-1052." This index contains about 450 outries.

An index has been made to Vol. 53 (A/203) of the same series, en-

titled "Names and Restrictions of the Robert Cartesian of the Courset of Cours, 1644-1655." This index contains the names of L300 townshinds. The index montains of furnish to volume 54 (0.1 to 0.13) of the anne acries, entitled, "Reset Rolls of Lasins, House, Triniss, &c.,

same series, entitled, "REST ROLL OF LANDS, HOURS, TYPIES, &c., BELDMINGS on His Humbers AND PRIC COMMUNICATION, 1887-1659," has been completed, and transcribed into the volume. It contains full 7,000 manus of persons and heavy. These requests, in conjunction with the Appendix, comprise all I
